

Dear FCC,I recently heard about the National Association of Broadcasters' introduction of petition 04-160. I strongly oppose this petition. I pay for XM Satellite Radio and listen to many of its programs geared toward locals, such as weather and traffic information. This quality of programming is not available elsewhere. It should not be up to NAB to dictate what I'm permitted to listen to! Please reject petition 04-160 and continue XM Radio to provide the quality programming that I want. Thank you for your time and consideration.

Regards,
Rachel Sharp
